EDUCATION

G.H. Raisoni College of Engineering and Management

Bachelor of Technology in Computer Science and Engineering | CGPA: 8.26 / 10.0

Nagpur, Maharashtra
August 2022 - May 2026

S.F.S College, Seminary Hills

Higher Secondary Certificate (Class XII) | 62.83%

Nagpur, Maharashtra
2022

Somalwar High School

Secondary School Certificate (Class X) | 87.40%

Nagpur, Maharashtra
2020

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Backend Development: Spring Boot, REST APIs, JDBC

Web Technologies: HTML5, CSS3, React.js

Databases: MySQL, MongoDB

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, Computer Networks

Developer Tools: Git, GitHub, IntelliJ IDEA, Postman, VS Code

EXPERIENCE

JAVA DEVELOPER INTERN | AB INFOTECH SOLUTIONS PVT. LTD.

Dec 2025 - June 2026

- Developed and maintained backend applications using Java, Spring Boot, REST APIs, and MySQL.
- Built and integrated CRUD operations, database connectivity, and business logic.
- Worked on a CRM project, gaining hands-on experience in real-world software development.
- Participated in testing, debugging, and application enhancement.

PUBLICATIONS

Soybean Leaf Disease Detection with Severity Grading using YOLOv8 CNN

IEEE International Conference on Communication Networks and Computing (CNC-2025) | Accepted

December 2025

- Developed a YOLOv8-based deep learning model for soybean leaf disease detection and severity classification.
- Performed image preprocessing, annotation, and model training using Python, PyTorch, and OpenCV.
- Evaluated model performance using standard metrics (accuracy and mAP) on a labeled image dataset.

PROJECTS

Soybean Leaf Disease Detection System

Python | CNN | TensorFlow | Keras | Deep Learning

- Trained a CNN model to classify soybean leaf images as healthy or diseased; applied data augmentation and hyperparameter tuning to improve generalization and reduce overfitting.

Customer Relationship Management (CRM) System

Java | Spring Boot | MySQL | REST APIs

- Developed RESTful APIs using Spring Boot and Spring Data JPA for customer data management with CRUD operations and search functionality.
- Designed MySQL database schema and implemented data access using JPA/Hibernate with validation and exception handling.

Bank Management System

Java | Swing | MySQL | JDBC

- Built a Java Swing-based desktop application to manage banking operations including deposits, withdrawals, and fund transfers.
- Implemented JDBC with SQL transactions and exception handling to ensure data consistency and reliability.

Bite Runner - Food Delivery Web Application

React.js | JavaScript | HTML5 | CSS3

- Developed a responsive food delivery web application using React.js with features like menu browsing, cart management, and order placement.
- Used React Hooks (useState, useEffect) to manage application state and handle dynamic UI updates.

CERTIFICATIONS

Java Object-Oriented Programming: Udemy

Accenture Developer Job Simulation: Forage

TCS iON Career Edge - Young Professional: TCS iON

EXTRACURRICULAR ACTIVITIES

- Competitive Rubik's Cube solver with an average solve time under 30 seconds, demonstrating strong logical thinking, pattern recognition, and problem-solving under pressure.
